

HOW THIS WORKS – CHAPTER TWO

“HOW THIS WORKS” ended with a short few paragraphs about “GOOD, BETTER, BEST”; this CHAPTER TWO expands on that idea.

In what follows, “UAWS” refers to “UNIFORM ADVERTISING WEEK SERVICES”, which is a service to promote business through advertising as described in <http://www.zcash.org/NEWS7004.pdf>

There is a concept, fundamental to economic well-being, that is biblically expressed as “Let no man seek his own, but every man another’s wealth.” (1 Corinthians 10:24)

In the TEXAS HOLDINGS, INC 2016 BUSINESS MODEL, this is contractually embodied in the requirement for entities, which want to benefit (“BENEFIT RECEIVERS”), to provide business referrals to INDEPENDENT CONTRACTORS.

For example, how many taxing authorities, such as school districts, water districts, municipalities, counties, states, and national governments in the world, need money?

A BENEFIT RECEIVER may introduce officials in those governmental entities to the fact that the TEXAS HOLDINGS, INC 2016 BUSINESS MODEL can be used to generate taxable business in their jurisdiction sufficient to provide their governmental entities with funds to take care of ALL the governmental entities’ financial needs – without the governmental entities incurring debt to be repaid!

For example, how many businesses continually buy items, with the required payments representing a significant drain on income received?

A BENEFIT RECEIVER may introduce businesses’ purchasing departments to the fact that, through INDEPENDENT CONTRACTORS, they may purchase SUPER UAWS and that they may resell the SUPER UAWS through the TEXAS HOLDINGS, INC 2016 BUSINESS MODEL before they contract to acquire the SUPER UAWS, to obtain an income equal to 150% of the cost of the SUPER UAWS; thus, providing them profit to offset payments they make for other items – which can effectively eliminate the burden of paying for items purchased, as well as provide income through taxes to governments of their jurisdictions!

For example, how many businesses would like to presell items for future delivery, setting aside the value necessary to deliver the items, and use the profits to provide needed capital?

A BENEFIT RECEIVER may introduce businesses’ marketing and sales departments to the fact that, through INDEPENDENT CONTRACTORS, they may arrange to presell items through the TEXAS HOLDINGS, INC 2016 BUSINESS MODEL; and, thus, obtain

any level of capitalization that may be approved, as well as provide income through taxes to governments of their jurisdictions!

For example, how many businesses and governmental entities would like to have all costs related to employment of personnel and benefits recovered?

A BENEFIT RECEIVER may introduce personnel departments and recruiting/personnel-consulting firms to the fact that all such costs may be recovered by the purchase/resell of SUPER UAWS and/or by the presell of items, as described above.

So, what is “the catch”?

The saying “There is no free lunch!” is still true!

The TEXAS HOLDINGS, INC 2016 BUSINESS MODEL allows for payments for the above to be provided by UNITED STATES DOLLARS value (originating with TEXAS HOLDINGS, INC) to be deposited with entities selected by TEXAS HOLDINGS, INC, such as FIDES GESTION FINANCIERA, S.A. DE C.V. (“FIDES”), a private financial firm in Monterey, N.L. Mexico.

Each request by a BENEFIT RECEIVER, which is to result in value being deposited with FIDES, as well as each request to use said value in any subsequent transaction, in addition to payment of any charges that may be made by FIDES, must be accompanied by a business referral that chooses to purchase through an INDEPENDENT CONTRACTOR, providing immediate payment to coordinates stipulated by the vendor, UAWS valued at \$10,000 UNITED STATES DOLLARS, per each \$1 Million UNITED STATES DOLLARS or portion thereof involved in the request; although a BENEFIT RECEIVER may choose to make the purchase of UAWS as indicated, the plan is for the BENEFIT RECEIVER to qualify by referring other business!

Transfer of value from FIDES to another institution may be accomplished by using the protocol <http://www.change2100.com/THIBMART/INVAG.pdf>

To execute the INVAG process, the receiving institution must agree to provide loans to HOWSE SERVICES, INC or to a HOWSE surrogate, using collateral provided by HOWSE SERVICES, INC; such as FIDES INTERNATIONAL BILLS OF EXCHANGE ISSUED FOR PAYMENT on behalf of HOWSE, MEDIUM TERM NOTES OWNED BY HOWSE, SECURITIES OWNED BY HOWSE, etc.

If not, the BENEFIT RECEIVER, in conjunction with an INDEPENDENT CONTRACTOR, must use the collateral provided by HOWSE to obtain loans elsewhere for HOWSE or for HOWSE surrogates.

For collateral owned by HOWSE:

See

<http://www.change2100.com/THIBMART/FORMAT%20OF%20INTERNATIONAL%20BILL%20OF%20EXCHANGE%20TO%20MAKE%20PAYMENT.pdf> ... HOWSE has assets lodged with FIDES through which it can cause UNITED STATES DOLLARS value to be deposited and used to back these instruments.

See <http://www.change2100.com/THIBMART/DOCS/docs.html>

HOWSE can use its assets to support the issuing of MTN by any entity that may be approved by FIDES and to be purchased by HOWSE.

To view NVC FUND TRUST a password is required and authorities or approved institutions may obtain the password through an INDEPENDENT CONTRACTOR... but the certified value already purchased by HOWSE is in excess of \$100 Billion UNITED STATES DOLLARS with a rating of AAA.

Proceeds from loans made to HOWSE or to surrogates are to be used to immediately provide funds to the BENEFIT RECEIVER in exchange for value deposited with FIDES; and, in conjunction with additional asset value provided by HOWSE, to undertake investments acceptable to HOWSE to repay the loans.

BENEFIT RECEIVERS and INDEPENDENT CONTRACTORS are responsible for identifying and structuring loans and investments acceptable to HOWSE, with FIDES functioning as “Closing Bank” and as agent for HOWSE.

In short, HOWSE assets may be used in business structures to provide funds to be exchanged for value deposited with FIDES; which is already being done with various entities.

Once exchanged, value deposited with FIDES shall be deleted from FIDES ledgers, and continuing investment income shall be allocated to pay for ADVERTISING CREDITS as per the terms of outstanding associated REPURCHASE AGREEMENTS.

Selected investments might be:

- 1) Contracts with professional financial trading organizations**
- 2) Real estate developments that are to be presold**
- 3) Energy projects to provide continuing income**
- 4) Food production projects to provide continuing income**
- 5) Mining projects to provide continuing income**
- 6) Technology projects to provide continuing income**
- 7) Advertising services purchases and resales to provide continuing income**
- 8) Etc.**
