

DHL INVESTMENTS

915-630-6960

mrdanielluevano@yahoo.com

DHL Investments has been in business since 1980. We started investing in Real Estate and are still active. We have been focused in the lending and purchasing of commercial real estate such as strip centers, office building and apartments. We also broker performing and nonperforming real estate notes, at discount.

DHL Investments has branched outside of the local area and has been working as a facilitator with a group of worldwide investors.

Working in the energy sector, and mineral field, has expanded our knowledge of world needs and the opportunity to help these countries export their national product. Also we counsel businesses to import basic energy needs thru projects of humanitarian nature.

DHL Investments goal is to continue working to make the planet a better place to live for all humanity.

DHL Investments,

Daniel Luevano and Margie Luevano
