

Switzerland November 4, 2016

Independent Contractor working with SPURT.

New Chances is situated in Switzerland, Europe.

New Chances is the fiduciary of MySPURT.org. We provide SPURT as backing of the Business Models.

We work with people who have a MySPURT account and want to use the SPURT for this Business Model.

We offer our services through MySPURT.org and Soundprosperity.org. Our power is in the explanation of these, for many people, complex Business Models and make them easier to understand. We train our clients to become an Independent Contractor through the website MySPURT.org and through webinars.

We understand that there are different kind of Independent Contractors. Some of the MySPURT clients have trouble understand this concept and can just call the leads we present or they find themselves. Others are willing to learn and understand the whole process. We offer support to any of them.

After interested potential clients are contacted, we can take over from you, to provide deeper information to the potential client. We can also support you.

We speak several languages: Dutch, English, German. In word and writing in this sequence.

We also have the possibility to speak to Slovenian businesses through our connections.

Since we work for many years with the business brought by THI, we are very familiar with the way they work.

We are supported by a Master Center.

Kind Regards

Irene Schoots
New Chances
