Summary

My business background primarily comes from our family business, which operated for 54 years. I purchased the business from my father, which primarily marketed general insurance to businesses, farms and the public. After the purchase, I opened a series of 13 branch offices, that included insurance, travel agencies and Century 21 Real Estate. The manager of each branch office, had an option to purchase their business, after 7 years, which is in keeping with my support of the free enterprise system.

EXPERIENCE

Managing the various aspects of our branch office system, meant being willing to grow and adapt to business opportunities. In this regard the selling and managing of commercial real estate, became a major area of expertise.

This lead to more and more responsibility in the venture capital business. Thus, a working connection was established with Bright Star Work Center (BSWC), who are leaders in this field, and need experienced, responsible representatives, and I seemed to fit the bill.

It, therefore, seems reasonable, that I could represent, their funding facilities, in this part of the world, primarily from a real estate point of view. But, at the same time not limited to North America. Therefore, I have undertaken to be an Independent Contractor, with Texas Holdings Inc. Business Mart.

Community

Having been on the Nation Executive of the Kinsmen Clubs of Canada, I then served as the Secretary/Treasurer of the World Council of Young Men's Service Clubs, for 2 years, which set up many international friendships.

Joan and I are married, with three children, and are active members of The Lloydminster Gospel Fellowship.

I served for several years on the Board for Habitat for Humanity, and was responsible for establishing a Restore in Lloydminster.

Respectfully submitted from Lloydminster, Alberta on this 29th day of October, 2016.
