

NOTES ON REQUESTING A LOAN AND INSURING DOCUMENTS

Once a PURCHASE ORDER and REPURCHASE AGREEMENT is in place... You may request a loan... which TEXAS HOLDINGS, INC can provide by giving you an ACPN issued by HOWSE SERVICES, INC accompanied with an IBOE issued by the financial institution FIDES... out of Monterrey Mexico...

With those four documents you may approach an insurance company to get the "wrap"

The insurance company may want additional collateral... FIDES can provide that in the form of SPURT...

As per USA law... any digital currency... from anywhere... may be used to make payment and to be held for investment... use and acceptance is up to the parties involved

As per USA law... every digital currency is a commodity...

The value of a commodity is always determined by the "mark to market" rule...

TEXAS HOLDINGS, INC accepts SPURT at the value of \$1 UNITED STATES DOLLARS each as collateral for commercial credit to buy ADVERTISING CREDITS

ADVERTISING CREDITS are "real world" products...

Thus... the acceptance by TEXAS HOLDINGS, INC provides "mark to market" value for SPURT

Thus... as a commodity... FIDES may provide SPURT as additional collateral for the insurance company to "wrap"...

So... in addition to the four documents... you may present equal or even greater value SPURT as collateral for the insurance wrap

Of course... other collaterals may also be available as may be negotiated

For example... government debt instruments

The insurance wrap may be used to obtain a credit facility from a public or from a private lender... if you have the contacts to do so... ...FIDES, TEXAS HOLDINGS, INC, or a TEXAS HOLDINGS, INC BUSINESS MART CALL CENTER may provide such contacts, but have no obligation to do so!
