**ONE SMALL TOWN UGWAKU,  
LETTER OF COMMITMENT TO IMPLEMENT ONE SMALL TOWN  
STRATEGY IN OUR COMMUNITY.**

I Mr. Adolphus Nwosu, the President General of Ugwaku Town Union, also called the MAYOR of Ugwaku, hereby affirm my commitment to implement ONE SMALL TOWN project strategy in my town. As the head of Ugwaku Town, I pledge to mobilize the entire community towards achieving the comprehensive package outlined under

For the record, Ugwaku Town is a rural community in Ugwaku Autonomous Community in Okigwe Local Government Area of Imo State, Nigeria. The Headquarter of Ugwaku Town is at Ogu. Ugwaku Autonomous Community is the third largest community in Okigwe LGA with a population of about four thousand persons.

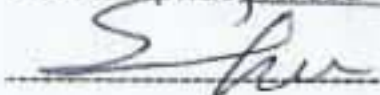

We are ready to partner with good organization like Global and others to install independent power supply in our town. Giving the size of our community, 10,000 MEGA WATTS plant should go a long way.

Our Town Hall request is electricity, but having gone through your brochure, I have come to appreciate that countless opportunities come with your engagement in our community on the ONE SMALL TOWN strategy implementation. I have come to understand that our community and the people will be empowered economically through investment in agro allied industries, waste management and rejuvenation of dead cottage industries, entrepreneurship training, and skill acquisition among others. Your principles of collectivism and waste to resource are attractive that cannot be ignored.

I assure you and the partners of our maximum cooperation any time. We are glad and open to the partnership.

With the best regards,

Mr. Adolphus Nwosu
